Highly motivated Computer Science student with a strong foundation in software development and a passion for utilizing technology to solve real-world problems. Skilled in C++, back end software development using Django, Django REST Framework, and database development using MySQL. Strong analytical and problem-solving abilities, as evidenced by successful completion of various academic and side projects. Continuously seeking new challenges and opportunities to expand knowledge and skills.

EDUCATION

BS Computer Science

University of Central Punjab

10/2020 - Present

Lahore, Pakistan

Relevant Courses

- Introduction to Database Systems
- Data Structures and Algorithms
- Object Oriented Programming

Intermediate in Computer Science

Pakistan International School Jeddah

09/2017 - 06/2019

Jeddah, Saudi Arabia

SKILLS

Python

Django

Django REST Framework

MySQL

C++

Git

HTML

CSS

Bootstrap

SQLite

ACHIEVEMENTS

CGPA based scholarship (02/2021 - Present)

Maintained a CGPA above 3.3 to be eligible for a 25% scholarship throughout all semesters.

PROJECTS

Little Lemon Restaurant Website (11/2022 - 12/2022)

- Developed a concept restaurant website which enables users to view the restaurant's menu and pricing.
- Implemented a booking form through which users can book a table.
- *HTML, CSS, Django and MySQL.*

Restaurant API Project (01/2023 - 01/2023)

- Developed an API in which employees with different roles able to browse, add and edit menu items, browse orders, assign delivery crew to orders and finally deliver the orders.
- Set up Token based authentication using the Djoser library for Django REST framework. Restricted all endpoints to be accessed by authenticated users only. Users will be able to perform actions based on whether they are authorized or not.
- *Django, Django REST Framework, Insomnia (API Testing) and SQLite.*

Askari 11 Resident Complaint App (03/2023 - Present)

- In the process of designing and developing a web based portal for the residents of Askari 11 to make it easy for them to file complaints.
- Implemented a custom user model which is divided into two groups of users. One group consists of users which belong to the Askari administration and the other are the Residents.
- *HTML, CSS, Bootstrap, Django and MySQL.*

COURSES & CERTIFICATES

Meta Back-End Developer Professional Certificate (09/2022 - 02/2023)

Meta Database Engineer Professional Certificate (10/2022 - Present)
